FINANCIAL.

There was some new demand for money yesterday, but it was not so good as the day previous. Stock trading paper made no mention of the offerings, general clearing, or the market. Shipments of currency to the country, light, bank clearings, \$1,628 per cent. Same day, \$1,628 per cent. Bank clearings, gain of 12 per cent. Eastern exchange continues scarce and

Houston, Fible & Co., exchange brokers, quote it as follows: New York, \$1 premium; Chicago, \$1 premium; St. Louis, \$1 premium.

The Midland National bank yesterday declared its 3 per cent regular semiannual dividend.

Business companies seem anxious to get out of the currency shipping business. They have all agreed upon a general reduction of 10 per cent, to take effect at once. To New York, \$1 premium per \$100, being an advance of 20c. To Chicago, the rate now is 150c, formerly 150c. To Boston, 150c, formerly 150c. In the interior, the advance has been even more marked to many places on small amounts than have been about abroad.

Eastern exchange is still taken in New York yesterday for export, making so far this week, \$4,500,000.

Stocks and Bonds.
New York, Jan. 4.—It was a dull day on the Stock Exchange today and in the market. The demand was very weak. The depression was the unexpectedly heavy shipments of gold for shipment to-morrow. The market was quiet, but the average gold exports for the year, 1894, which is heavier than the shipments of any year since 1879, suggests London was a small seller of the gold of the market, a buyer of a portion of the arbitrage specialist, but his transactions were not sufficient to account for the heavy fall to any extent. At the opening of business at 10 o'clock there was a general improvement in the market, the range running up to 100 cents in Lake Shore, the other gains being fractional.

The bond market was first in the morning, but in the afternoon the dealings were irregular and the market closed unsettled in tone.
